Experience has no substitute

Learn how to assess clients, communicate with people from diverse cultural backgrounds, plan and implement nursing interventions, and manage and evaluate nursing care in this professionally-accredited degree.

You can study your entire degree with JCU in Cairns, Townsville, Mackay and Mount Isa or study externally. Make use of the opportunity to go on an overseas student exchange or an international placement experience!

“Doing my three-week placement in Weipa made me more drawn to becoming a rural and remote nurse and giving back to my people. By being situated in a place like Weipa, I was able to have a more hands-on experience: applying cultural competencies and applying competent nursing skills to my people. This made me feel like I was making a real difference in giving back, just as a student nurse. This made me realise my potential as a future registered nurse.”

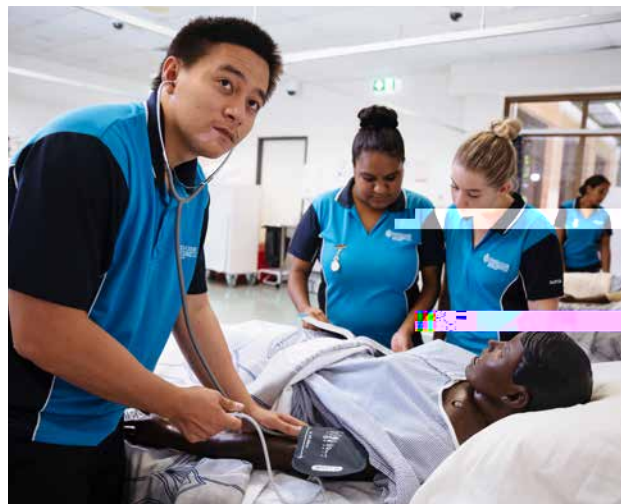

Ivy Hodges
